All Elevators Will Sell War Savings Stamps

All elevator agents will assist in the sale of war savings certificates to farmers throughout Western Canada at more than 4,500 country elevators by Line Companies, Pools and the United Grain Growers, it was announced this week.

Facilities will be arranged where by a farmer when delivering grain to the elevator will be enabled to have a cash grain ticket made out direct to the Government for what ever amount of War Savings Certificates he wishes to purchase.

This ticket will then be forwarded to Ottawa by the elevator agent and the farmer will receive his War bond direct from Ottawa.

E. J. Tarr, K. C., chairman of the War Savings Committee for Manitoba, expressed appreciation for the co-operation of the Elevator Companies for making available more than 4,500 additional sales outlets in rural areas of the West-Prvinces. He urged all farmers who wished participate in this war effort to arrange the purchase of their certificates at country elevators.

EXPANSION OF HOME GUARD

The Provincial Secretary of the Canadian Legion has sent out a circular to all local Branches stating that a additional Company of four platoons of the Veterans Home Guards has been authorized. To be eligible for appointment to or enlistment in No. 13A Company, Veterans' Home Guard, applicants must be veterans of the 1914-18 war, either Canadian or Imperial, maximum age 50 years, category A, B or C. Local applicants should see F. Mossop and get the recommendation of the local Branch.

National Registration

On August 19, 20 and 21, a great army of Canadian people - all those, male or female, over the age of 16, will move out to points of registration and fill in the cards containing a number of questions.

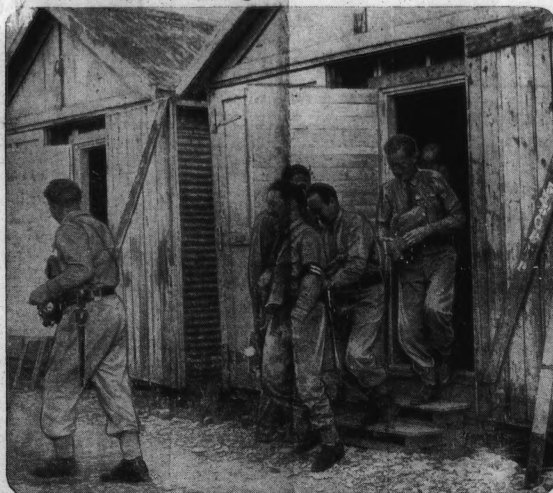

Why is this registration taking place? This country is at war. It must put forth the utmost possible effort to win the war.

In order to do this it must marshal the full forces of the nation - all the human, moral, material and spiritual forces of Canada. There can be no slacking. We need more planes, tanks, ammunition. To produce them we need more men, women, materials, money. The nation must spend less, produce more and, to be frank about it, pay more taxes.

Then it is necessary that our young men should be trained for home defence. They will be called up at an early date for a brief period of intensive military training.

Yes we are at war. Registration means simply, organization for greater effort - for victory. Register early. To answer the questions takes only a few minutes' work if you come prepared to answer. Read the questions in this paper and know the answers you have to make before you go to register. Where so many must give their all, you will not hesitate in doing your part.

A "Personal Knowledge" of Gas

A little less pleasant part of the training given the McGill University Contingent of the Canadian Officers' Training Corps during their 10-day camp at St. Bruno was the gas instruction. Cadets are shown coming out of the gas chamber. They must take off their respirators before leaving so as to become "acquainted" with tear gas.

A service entitled "A Garden of Memories" will be conducted under direction of Mrs. C. Fox, P.P. of the Rebekah Assembly of Alberta. The decoration of graves at the local cemetery will follow.

Any friends wishing to decorate graves, kindly bring flowers as you are requested to make this a Decoration Day.

Cereal Crops Field Day, Lacombe, Friday, August 9th.

The late spring seeding and showery weather have made the difference in earliness and strength of straw of different varieties very apparent. Five hundred different varieties and strains of wheat, oats and barley, well illustrate these very important factors. Some three hundred crosses of spring and winter wheats are quite promising. From the 6000 plots of grains, grasses, clovers, roots, potatoes, and pastures, many valuable lessons may be learned.

This is a Cereal Crops day but there will be an opportunity to visit the large and very interesting displays of trees, shrubs, hedges, tree fruit and bush fruit plantations, vegetable gardens and annual and perennial flowers. Do not miss seeing the roses.

A drive around the Station will pass the poultry, pigs, and cattle and horses in pastures. A brief talk will be given on crops for hay and pastures.

Lunch will start at 12 o'clock with a few speeches about 1 o'clock followed by a drive around the 1000-acre farm and a visit to the

United Grain Growers Voice Opposition

Friday evening, R. S. Law, president of the United Grain Growers Limited, voiced opposition to a proposed provision of the act amending the Wheat Board act and made public the following telegram despatched to members of the government at Ottawa as soon as the announcement of the proposed change was made.

"A newspaper despatch from Ottawa this afternoon states that the Wheat Board Act is to be amended to provide that the basis of initial payment to the farmers shall be seventy cents for Number One in store both Fort William and Vancouver as was provided in the Wheat Board Amending Act of

Nineteen Thirty Nine. On behalf of the many thousand shareholders and customers of United Grain Growers Limited and farmers generally in the province of Alberta, we desired to protest. We wish to point out to you that when the Act of Nineteen Thirty Nine was passed, Parliament was fully conscious of the fact that the basis then established would give Alberta farmers the benefit of the lower freight rates which apply to Van-

couver as compared to Fort William. It was obvious then that there might occur what has actually happened that Alberta grain might have to be moved to Fort William at the higher freight rate and that in the event of the Wheat Board operating at a loss this fact might enhance the loss to the Dominion Government. The Act was deliberately framed and passed in the form given to it in Nineteen Thirty Nine because the basis provides as initial payment was recognized as being the lowest at which Parliament was willing to see the wheat industry operated in order to maintain the economic structure of Canada.

The Vancouver freight rates structure has been built up over a period of years and has become an integral part of the economic life of Alberta. The fact that grain shipments from Vancouver are now interrupted is due to the exigencies of the war. By the alteration now proposed a blow is struck at Alberta farmers which threatens to reduce the amount they will receive in initial payments from the Wheat Board by varying amounts up to five and a half cents a bushel on their wheat. This will not only be disastrous to farmers of the province but will seriously impair the whole business structure in Alberta.

We send this protest now in the belief that the full effects of the proposal could not have been realized when it was incorporated in the amendment now before Parliament.

The change proposed at Ottawa would mean a reduction of 4.2 cents per bushel on wheat delivered to the Wheat Board at Crossfield.

According to Lt.-Col. Wilfred Bovey, national chairman of the educational division of the Canadian Legion War Services, present plans indicate that correspondence courses in technical, high school, vocational, elementary and academic subjects will be available for troops training in Canada in early autumn.

ICELAND

Iceland is situated 250 miles from Greenland and about 600 miles west of Norway; greatest length (east to west) 300 miles. It touches the Arctic Circle on the north and is roughly 500 miles northwest of Scotland. Area with adjacent islands is about 40,000 square miles. It is shaped somewhat like a heart with its narrowest part pointed south. Coastline on the southeast is almost unbroken for a considerable distance, and in all other directions has deep bay affording natural harbors. Interior generally wild and desolate. There are lofty mountains of volcanic origin, many crowned with perpetual snow and there are great glaciers on their sides. Mount Hecla is the most celebrated peak and is about 5,000 feet high. There are numerous geysers, especially near Reikjavik in the southwest. Lakes and Rivers are numerous. Most valuable mineral deposit is sulphur. The island is famous for its double refracting spar. Summer is too cool for agriculture to be carried on with marked success. The longest day (in the south) is 24 hours, and the shortest 4 hours. Birch is almost the only tree and the loftiest hardly exceeds 10 feet. Heath and bilberry cover large stretches. Iceland-moss is edible. Some kinds of vegetables and roots do well but the most valuable crop is grass and on it, sheep cattle and ponies are fed. Reindeer, introduced in 1770, form large herds in the interior. There are salmon in the streams, and on the coast, cod and herring fisheries are operated. Exports are wool, oil, fish, horses, feathers worsted hose, mittens, sulphur and Iceland moss.

The Icelanders have a romantic history. They are of Scandinavian origin and speak a Scandinavian dialect which still represents the old Norse in great purity. The Althing or parliament meets twice a year. The people are of Protestant faith. Christianity was introduced in 961 and adopted by law in 1000. The political history is a chapter in itself; however in 1918, Iceland became nominally a sovereign state but is united to Denmark in the person of the Danish king. The population is about 80,000.

In view of the prominence into Iceland has emerged lately, many people have turned their attention to it. The exact role it is destined to play in the present upheaval among the nations cannot be predicted. Canadian troops have been sent the outpost to guard it against Nazi invasion.

LINE ELEVATORS OFFER PROFITS TO GOVERNMENT

PREPARED TO TURN
OVER NET EARNINGS OVER
SIX PERCENT

Owners of 3,000 line country elevators in Western Canada have offered to place their elevator facilities at the disposal of the Government on the basis of receiving six per cent on the capital employed in the business. This is the effect of an offer made to the Canadian Wheat Board by The North-West Line Elevators Association, according to an announcement made by G. W. P. Heffelfinger, president of the association.

Premier W. L. Mackenzie King

KING'S COMMENT

"Deception has run its course", Prime Minister King told the House of Commons during a brief reference to Hitler's recent outburst. "The speech calls for no words in reply," said Mr. King. "It answers itself." He declared that "Canadians are prouder than ever to share with men and women of Britain the rigors of the conflict and to stand shoulder to shoulder with them in defence of social justice and of human liberty."

Help The Registration

There are many ways in which you can help the work of national registration. First, of course, register - and register early.

It is anticipated that eight million people will register during the three days - August 19, 20 and 21. That is not quite twice the number who polled their votes in the last election.

Perhaps the deputy registrar in your own territory could use your services. You might help on the day of the registration.

It ought to be a matter of honor in this district to have the registration as full and complete as possible.

POOL PROPOSALS

Prairie wheat pools have suggested several ways to help relieve the expected storage congestion says P. F. Brett, president of the Manitoba Pool Elevators upon his return from Ottawa. The four main suggestions by the pool organization were that the wheat board handle all wheat marketing; that some method be worked out for advancing money against wheat stored on the farms; that farmers be protected against past debts; and that an adjustable domestic price for wheat be set.

Japs Mimic Italian Tactics

The Japs think that Britain is down—so they take a kick at her. That is the explanation of the suddenly bellicose attitude towards the British in the East. Britain's determination not to knuckle under is shown by the prompt preparations made for defence and the evacuation of women and children. Here is a scene at a Hong Kong wharf with British and American women and children going aboard a ship to go to Manila, Australia, and other safe places.

The World of Wheat

By H. G. L. Strange

Dispatches from Ottawa inform us that owing to the lack of elevator space farmers will be required to store some grain for a time at least on their own farms. This means that Elevator Companies and farmers, too, will tend to "plug" or fill up their bins to the limit.

Almost every year, particularly since "combining" started, some farmers and some Elevator Comp-

anies have suffered severe losses because stored grain had become bin-burnt, which lowered the grade to "Rejected" and sometimes to no grade at all; this bin-burning being brought about because the grain was cut and threshed before it was thoroughly ripe, or because the grain contained unripened weed seeds.

The grain in "plugged" bins is difficult to examine or to "turn", and so it is more important than ever that grain for storage this year should be perfectly dry and free from weed seeds. It is evid-

ent, therefore, that farmers, particularly those who combine, should this year delay cutting their crops until the grain is thoroughly ripe. Special efforts, too, should be made to see to it that the screens of combines and of threshing machines are kept in proper working order so that weed seeds, which lower grade and take up valuable space, will be removed from the good grain. Following factors have tended to raise price: It has been estimated that 1940 European wheat crops will be 340 million bushels — or

about 30% less than last year. — The acreage planted to soybeans in Manchuria is 15 to 20 percent below last year — Corn crops in most parts of Western U. S. A. in urgent need of rain — Searle crop report estimates condition of prairie wheat crop only 82 percent of normal.

Following factors have tended to lower price: Harvesting of wheat in both the U. S. and the Balkans is progressing under ideal conditions — British intend tightening blockade against foodstuffs and other materials reaching

Germany through Spain.

With many summer days yet to come, the Canadian Red Cross Society is already thinking in terms of Fall and Winter, and women all over the country are urged to knit gloves, mittens, caps and helmets for men of all branches of the active service.

"These articles will be needed by the thousands," Mrs. Wallace Campbell, national chairman of the

The same all-service wool used for socks may be used for gloves, mittens, helmets and caps, Mrs. Campbell said. Instruction for all

"May this fair land we love so well
In dignity and freedom dwell"
Two worlds may change and go awry
While there is still one voice to cry—
REFRAIN

There'll Always Be An England,
while there's a busy street
Wherever there's a turning wheel,

Red, white and blue, what does it mean
to you?

Surely you're proud, shout it aloud,
Britain's sake,
The Empire too, we can depend on you,
Freedom remains these are the chains
nothing can break.
